MENTOR
TECHNICAL GROUP

in Boston, MA

Operating Engineer

Essential Functions:

- Operate, maintain, troubleshoot, repair and conduct all required periodic and preventive maintenance on all engine room equipment to include, but not limited to, boilers, chillers, pumps, electric motors, water softeners, electric generators and hot water generators. Keep and maintain accurate operation records.
- Record and report completed repairs and items that require further attention.

Education Requirements:

- Technical Degree in Mechanics, Electricity or Refrigeration with 1-3 years of experience required or any equivalent combination of education, training, and experience which provides the requisite knowledge, skills, and abilities for this job.
- Commonwealth of Massachusetts 1st, 2nd or 3rd Class Engineer
- Industrial Wastewater Treatment Operator license.

Experience Requirements:

- 5-9 years of experience in the utility's operation and/or maintenance is required.
- Previous experience working within the Pharmaceutical, Biotechnology, Medical Device, Food and Beverage, and Healthcare. Industries with thorough working knowledge of cGMPs is preferred.
